

Homework 38

1. Создать 3 компонента **“Карточка поста”**. Учитывая, что картинка необязательный параметр.

https://studapi.teachmeskills.by/api/schema/swagger/ui/#/blog/blog_posts_retrieve

Модель поста:

```
{
  "id": 0,
  "image": "string",
  "text": "string",
  "date": "2021-12-12",
  "lesson_num": 0,
  "title": "string",
  "author": 0
}
```

2. Создать компонент **“Список постов”**.

Astronauts prep for new solar arrays on nearly seven-hour spacewalk ...

Astronauts today (Monday) will begin their final preparations for the installation of new solar arrays on the International Space Station (ISS) during a nearly seven-hour spacewalk. The new arrays will provide the station with additional power to support its growing number of experiments and equipment.
